MANDALA OF THE DENDERAH ZODIAC

In Tantric Hinduism and Buddhism, a mandala is a diagram representing the universe, used in sacred rites and as an instrument of meditation. The mandala serves as a collection point for universal forces. By mentally "entering" the mandala and moving toward its centre, one is guided through the cosmic processes of disintegration and reintegration. Mandalas may be painted on paper or cloth, drawn on the ground, or fashioned of bronze or stone. Two types of mandalas represent different aspects of the universe: the garbha-dhatu ("womb world"), in which the movement is from one to the many, and the vajra-dhatu ("diamond world"), from the many into one. INNER CIRCLES OF WANDERERS THAT MOVE WITH COSMIC TIME

The previous image of the whole ceiling engraving clearly indicates that the “human feminine nature” establishes the “Four Corners of the Cosmos,” which means this mandala is that of the Human World. They are assisted by the eight falcons of “masculine nature” whose human bodies are stressed by the existence of the Four Corners. The stress is caused by the formation of a circle within the square. The square is the symbol of perfect rational essence. The circle is the symbol of perfect irrational essence. The sharp corners of perfect rational existence are smoothed by the physical stress to achieve a perfect irrational dream. The dream is that of the Father transferring the stress of the perfect dream to the Son. The eight falcons of human male nature are four Father Natures and four Son Natures. The four natures of the human female do not require, nor can it be accomplished, that the mothers transfer the feminine burden to the daughters. Birthing is a feminine burden which cannot be transferred. Father Nature represented by a falcon head is rational visual cognition dependent knowledge and passing on such experience is the goal of “civilized discourse.” Thus, the Son Nature that emulates the Father Nature becomes Father Nature and the rational knowledge is passed on as Wisdom of the Father when the son ascends to the Throne of the Father. The staff of the Son, Orion, aligns with the staff of the Father when the Father and the Son are One. Then the wisdom of His Story is a legacy. That legacy is aligned with the disc on the head of the beast at the altar of instincts at the bow of the barque of genes and the right arm of Osiris beyond the Red Dragon. Thus, the Cocky Man is guided by Genetic Cognitive Memory of a prior life.

COSMIC RAPTURE (Turn page over to see Quetzalcoatl with the Light)

December 21, 2012 is a Maya estimate of the exact moment of perfection of the Cosmic Rapture when First Father becomes known by the light of the Cosmic Son. It is based upon the celestial statement read at the conjunction of the galaxy and the ecliptic and the Four Corners of the World. Those four corners are the solstices and the equinoxes. When the winter solstice aligns with the Sagittarius-Scorpio-Ophiuchus galactic conjunction the Vernal Sun will be rising again. The mandala of the Denderah Zodiac presents the exact same rationalization of the cosmic spirit. Both traditions are rituals intended to preserve the sacred relationship of the Four Corners of the Cosmos to the Cycle of Time within, which is an Irrational Circle. By creating the ritual impregnated in a mandala the culture will be preserved and life will continue as the rapture of Life After Death. This ritual process has been the focus of aboriginal cultures since cave art first recorded the seasons of the sun some 50,000 years ago.

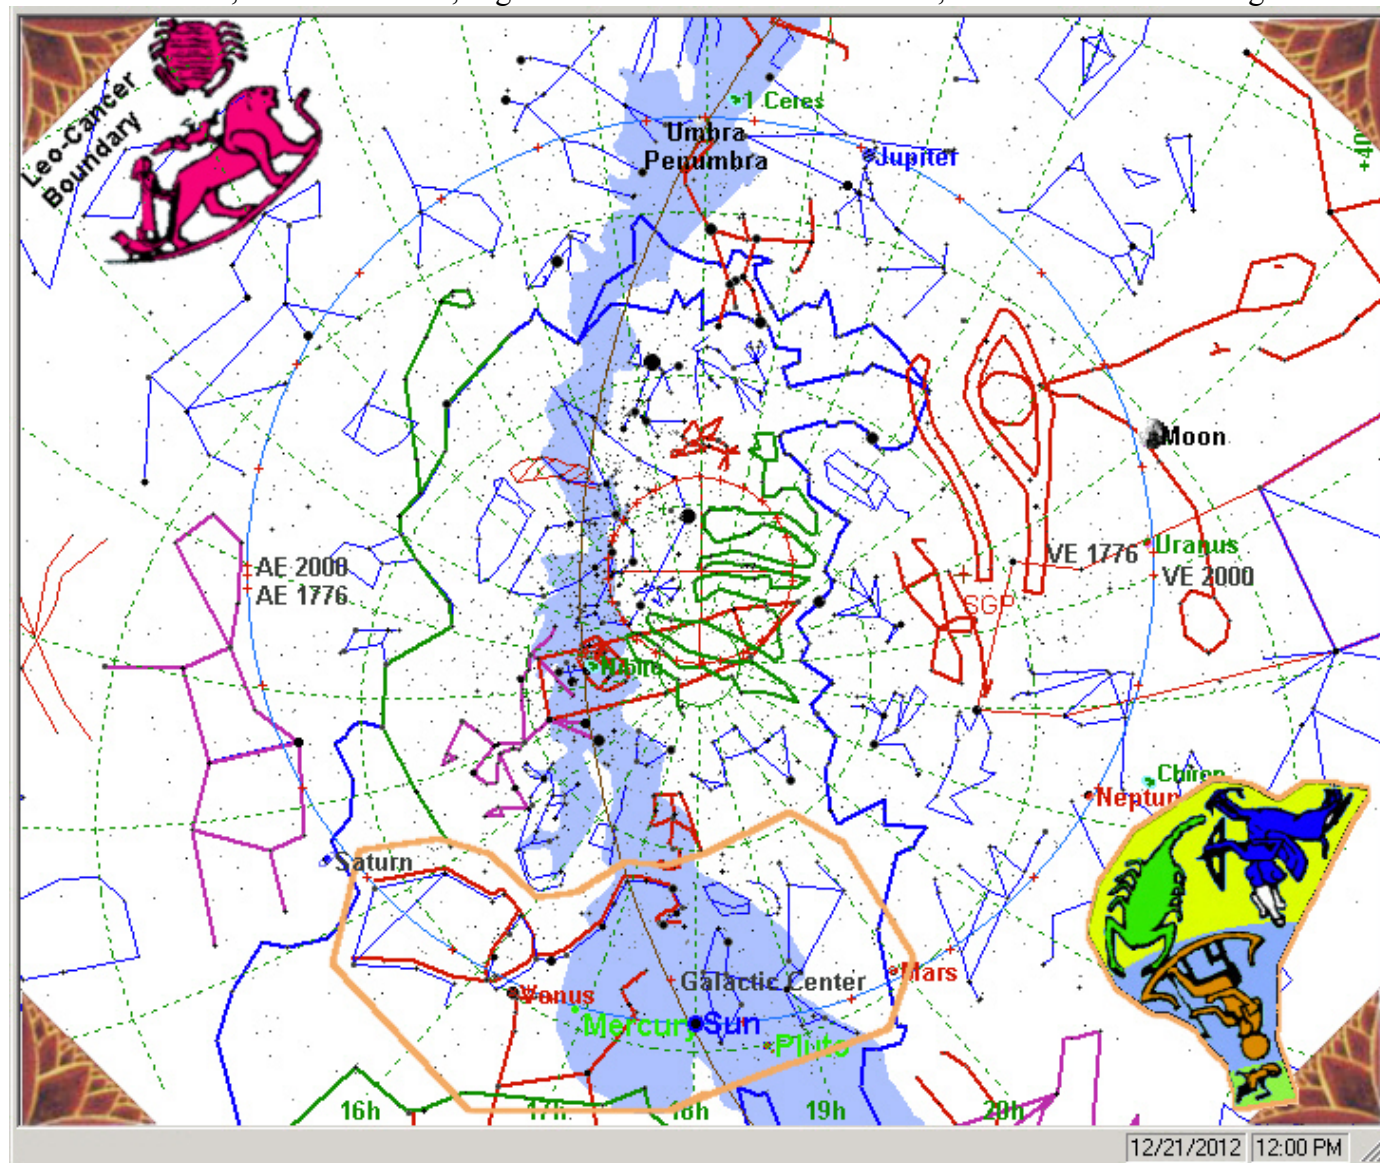

The process is the most real of all processes in life. When the process fails, life ends permanently. Human civilizations have fought to the bitter end to avoid the loss of the Life Granting Ritual. However, the Rapture is totally dependent upon death. Without death, there is no need for the ritual. Thus, the mandala preserves the cognition of death. When the Son realizes that the Wisdom of the Father defeats death, then the Son ascends to the Throne of the Father as the culture defeats death. Aquarius pours water on the Phallus of First Father that has grown into a Tree of Life and a Cosmic Pillar upon which rests the head of a King. The Aquarian Waters are surmounted by the circle in Pisces and the Great Square. Thus, the irrational (circlet of Pisces) supports the rational and the Bound Woman wipes the face of the King's Head as she lets go of The Key to Self Identity. The Mandala and the Heavens say that compassion is the Life Giving Waters that lead to the Rapture of a King's Eternal Dream.

COSMIC DEATH

Under the solar axis is the Phallus of the Beast. This Body of the Beast is joined to the Vision of the Archer as the Rapture of Man and Beast reigns in the unbalanced desire of the beast and restores the Genetic and Precognitive (irrational and rational) Wisdom of the Father-Mother-Son relationship required for Truth to be Passed On. The daughter is not lost in the rationalization of the circle. Rather, the daughter is the reason for the rationalization. Preservation of the idyllic womb of the Virgin Birth is essential if a Son is to become a Father, and if a cult is to retain civil order. Killing of the Great Red Dragon (Scorpio+Libra) is unacceptable because life without desire will result in death. Rather, the goal is to balance the desire and that requires the Man-Child of the Iron Hand (Libra) to be formed of the Claws of the Great Red Dragon in a ritual circumcision that tempers desire (Scorpio). Without the idyllic birth and the sacrifice of the Virgin (daughter's identity not rationalized), the power to come into the Cosmic Light will be repressed. Tyrants who would control the daughters are simply bound by a personal decree to repress emotion for the sake of rational self identity. Cosmic consciousness requires sacrifice of virgin self identity. When the Sheep Door has been Passed Through instead of Passed Over it is possible to enter the After Life. This is not the After Life of the Cosmos, it the After Life of Self Identity by the Reincarnation of Cosmic Identity. Truth is begotten, not made.

The information recorded on the mandala of the Denderah Zodiac was not the work of an individual. It was the product of a bureaucracy of priests funded by the individual cultures of the civilization of the Hellenistic Age. They were attempting to define the basis for World Civilization under the auspices of Hellenism (Cosmic Emotional Wisdom). The bureaucracy was the equivalent of NASA and the International Standards Organization combined. Their goal was the conquest of the Human Beast so that civilized order would not perish, again. With the assassination of Julius Caesar they failed and Hebrew Law became Roman Law. When Pontius Pilate washed his hands of the fixation of reason to the cross of compassion, human free will was bound to words in human books. Western civilization began to live by the Book of Osiris in Byblos and the Laws of Seth prevailed as truth cognition became a fading light on Classical Western Civilization.

A BRANCH OF THE COSMIC TREE

A pythoess speaks to the falcon and tells it to go build a nest; be fruitful and multiply. Once ego centricity has ended, a legacy can be passed on, but it requires a restoration of the physical body of genes and the virtual body of knowledge. A Daughter carries the genes in the pristine womb of the Mother of God. The Son carries the knowledge in memories of stress if the Father Image survives in works of his own hands. The temple is evidence that this was the dominant theology of the Hellenistic Age.

And he shewed me a pure river of water of life, clear as crystal, proceeding out of the throne of God and of the Lamb. (Rev 22:1)

Left: Journey of Truth.

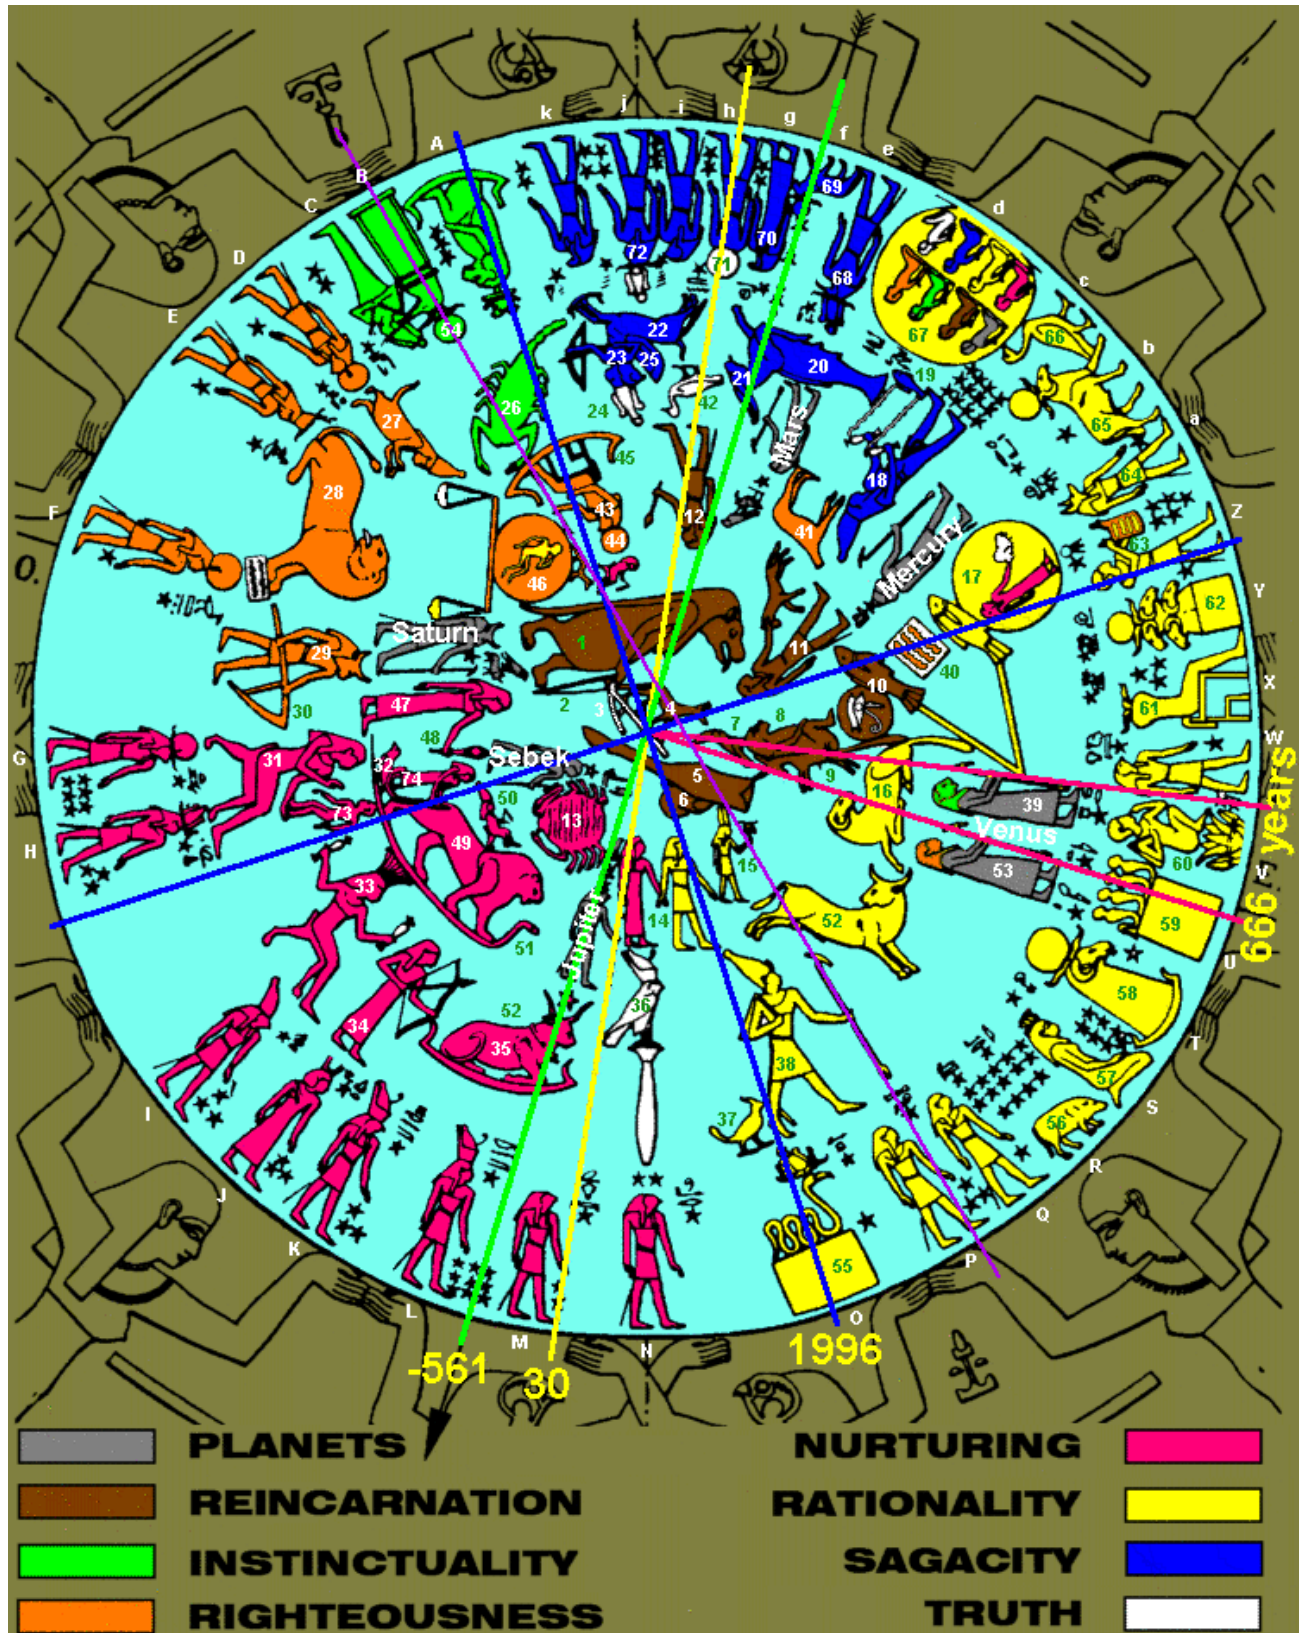

Right: Destiny, Thoth (1), Humble Identity (2), Seshat (pythoess) (3), Light on the road (4), Falcon Man (5), Knowledge Man (6), Pythian Man (7), Genetic Wisdom or Life Given Waters (8)

Greek Mythology: Pythoness is a priestess of Apollo at Delphi, a prophetess.

The journey of the Wandering Ones is complete when a Pythian God sees clear waters (emotional understanding).

Letters A-Z and a-k represent 36 Decans and one Epagomenal period beginning with Instinctual Wisdom and Osiris.

The Ring of Fire contains the Light that Shone Round About. The thirty-seven icons represent the decans of ancient Egypt in number. And because they surround the inner cosmos, they reveal that Egypt was the Cosmos. Thus, from the Gnostic perspective the Exodus from Egypt was the abandonment of reality. The Mesopotamians (Men from Ur) attempted to make the whole universe rational in accordance with human knowledge. The consequence of such rational righteousness is the bondage that keeps all men from reading the Signs of the Times. "I wept much, because no man was found worthy to open and to read the book, neither to look thereon." (Rev 5:4) In the Gnostic Temple to Hathor the Sacred Key to Universal Wisdom was placed at the head of the Humble Shepherd. This is the Lamb that was sacrificed and reincarnated from the dead. At the head of the Humble Shepherd (f) is the polar axis of the Earth. The Humble Shepherd stands between the author in the Hall of Records, Thoth (e), and his consort, the Fairy Godmother of Egypt, the Pythoness Seshat (g), who represents the source of all wisdom. Her wand with the seven pointed star under the inverted bovine horns means she is not real; she is the cause of reality when dreams come true. Today, Seshat stands with her seven pointed crown and book on Liberty Island. Every day with her book in hand and "The Kids" of the Good Shepherd riding the zenith, Seshat gazes along the Way of the Dead as the bow of Argo Navis sails towards her with the Feather of Truth coming up over the horizon. Her light has always guided Cosmic Truth to Liberty. Dreams do come true, and the great lady on Liberty Island proves that her light is the Light of the World, as above, so below.

THE LIGHT SHINING ROUND ABOUT

And it came to pass, that, as I made my journey, and was come nigh unto Damascus about noon, suddenly there shone from heaven a great light round about me. Acts 22:6

The 37 decans are displayed with the numbering sequences for Gnosis at the upper left corner of each box. The decan count for the days of the year is at the lower left corner of each box. The sequence for evolving life is a letter at the lower right corner of each box. Cosmic life cycles in opposition to the passing of the planets, and that is why the icons all circle counter clockwise around the mandala. The experience of the last two thousand years has demonstrated that astrologers, scientists, and theologians are loath to believe that the planets move backwards on the road between Egypt and Damascus. Astrologers, scientists, and theologians killed the spirit of the precession of the equinoxes during the span of time when the child in swaddling cloths came down to earth and King Herod denied the children of Bethlehem who would have been born in the years 0 BC and 0 AD. *And was there until the death of Herod: that it might be fulfilled which was spoken of the Lord by the prophet, saying, Out of Egypt have I called my son. Then Herod, when he saw that he was mocked of the wise men, was exceeding wroth, and sent forth, and slew all the children that were in Bethlehem, and in all the coasts thereof, from two years old and under, according to the time which he had diligently inquired of the wise men. Matt 2:15-16* A son was called Out of Egypt on the monument to the heavens on the ceiling of the Osiris Chapel in the Temple to Hathor. It was her son, whose death and resurrection on the road to Damascus restores life every autumn and spring, that also caused the Lunacy that followed when the Persians read the Rock of Ages and bowed to the Light of the Moon, as the Sun lost its place in the Seven Heavens of Islam. For the next two thousand years the Men from Nineveh would repress her emotions, and then Rev. 9:11 became history as Liberty was clouded by smoke and debris from the Twin Towers in the Land of the Free.

THE GNOSIS SHINING ROUND ABOUT

To understand the Son who came Out of Egypt when Herod denied Mark Antony and Cleopatra and failed to keep proper track of time as he betrayed the peoples of Holy Jerusalem, we need only read the metaphors in the icons of the Rock of Ages. And then realize that this temple was constructed when Hipparchus was crowing about the number of the years in the precession of the equinoxes. Subsequent to the betrayal of the goal of Hellenism, which was to provide a more “Perfect Union” of the communities of the Greco-Egyptian world as a Communion of Heaven’s Manna, it was necessary for the Gnostic Wisdom to be placed in a Hall of Darkness for two thousand years as arrogant Pythagorean science and Socratic philosophy proved that the unbalanced love of wisdom cannot substitute for the cognition of truth. The Gnostic sequence of the Decans leads from the pillar of Virginity (33) where the Vestal Virgin (34) fires her arrow toward rational righteousness and then it returns to the Mother’s Throne (31) where the Creator (G) controls cognition and Man (H) controls his own thoughts. The Light of Khnum at the Stiff Necked Ram (58) is passed on to seven suns as the apocalyptic message speaks, not of war, devastation, and Armageddon, but of the Second Coming of Truth out of Egypt. After two thousand years, the Men from Ur have not given up their yearning to put the Maternal Genetic Wisdom into bondage. Rather, the Men from Ur are in the final throws of a disastrous trepidation caused when Adam misunderstood Eve and Abraham ran away for Ur in search of the Promised Land as he lied about his sister-wife. This is the history of Western Civilization, and it is unfolding precisely on the schedule of the Decans of Egypt.

Now, six years after the Men from Ur sent brain washed puppets on a mission to save the demented dreams of the priests of Ur by spilling the blood of many virgins on September 11, 2001, it is time to reveal the Truth that came out of Egypt when the sons of Abraham ran away from Hathor’s child and Seshat’s wand. One cycle of the decans is 26,000 years and 36 decans. Two cycles is the required number of years of death before a Muslim whose faithful to the Quran can complete the Way to the 72 Virgins. Islam, Christianity, Greek Hellenism, Judaism, Zoroastrianism, and Egyptian Gnosis, all lead to the place in time where First Mother will reveal the presence of First Father from her own mouth, as the Maya also predicted. They all witnessed the winter solstice identified with the land of the Rising Sun. The Maya chose December 21, 2012 because then Time (Saturn) would be born of Xmucane (Virgo) and her attic would provide the instruments for salvation of Hun Hunahpu. It is time for the Lords of Xibalba and the Men from Ur to stand up and bear witness to Truth, as the Rock of Ages rolls away from the tomb of Truth at the 1st of Aries. It is time to Let Truth Be Told.

Recently, the Temple at Delphi and the correlation of Pythonesses and Pythian Gods on the Denderah Zodiac became evident. The evidence for the priests of Zeus-Amun taking a major part in the design of the Hathor temple and the icons is quite strong. The correlation of the Man & Beast and Venus (53 & 39) at the place of Cetus means that Love came to Hades where the knot of Pisces (10 & 17) touches the staff of Bastet (39). The objective of the Temples of Khnum was to "Create Men" out of Medusa's. The Greeks at Delphi had the same goal; "know thy self." The Sea of Reeds and Cetus are the Behemoth-Job that must be overcome to achieve the Cornucopia at Capricorn. This is the message of the Sacrificial Lamb and the Scapegoat. The Scapegoat (21) had the body of Cetus (20), and I never thought to look for the "side of Cetus" that was before the salvation until the Seven Suns of Khnum revealed the Light on the Road. The story of Isis is that she saved her brother-husband from the abyss. It was her sentiment that changed the abyss and united the mind and body of Osiris in the house of reincarnation at Capricorn. Remember, it was Capricorn under the name of Almathea that suckled Zeus to avoid the ravages of time (Chronos).

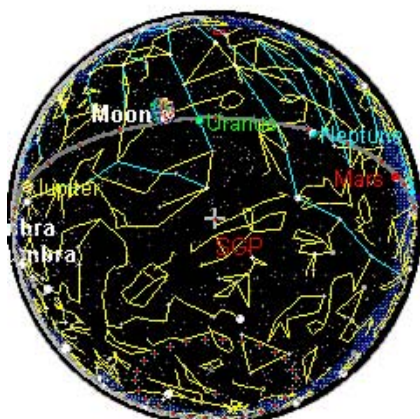

The Leviathan is the Crooked Serpent, which was Typhon, Tiamet, and the complete celestial Hydrus in which the Ben-ben had been passed from the head through to the tail where the Phoenix rises. The Denderah Zodiac shows the Leviathan as a Crooked Serpent under the "Cock & Foot" of Orion. Here is the essence of all who seek to learn of the Four Corners of Creation and the Great Circle within. A little bird receives the message from the Crooked Serpent, "Build a nest." And a cocky man ventures forth with his tail between his legs and faith in life's purpose. The meaning of Orion is based upon the Leviathan's inspiration which makes the youth a Cocky Man. Over his right shoulder he holds a flail with his right hand and he wears a White Crown (virgin). These are all symbols of the Great Typhoness illustrated as Feminine Wisdom compressed into physical genetic intuition. Thus, the "righteousness" of Orion is that of the Subliminal Female guided by the Vestal Virgins, Selket, Neith, Isis, and Nephthys at the Four Corners. In his left hand he holds a Scepter of Flint with stoker and striker. This is the Supraliminal Male creative power. He has yet to appreciate that it must be held with both hands and that is why he does not have the horns of Khnum. The Cocky Man is not in control of his emotions, which are "puppy love" feelings that bind him to his twitterpating hormones..

On the zodiac note the common projection line of the staffs of Orion (38) and Ophiuchus (43) (Osiris and Ra). This says that the Father and the Son are One. The crossed arms of the falcon men say the same thing. The father falcon looks back (clockwise). The mother maiden looks back, as well, for they know history. The son falcon and the daughter maiden cannot look back inside the square because they have no rational cognition to recall. The four regions of the mandala are earth, water, air, and fire from the inside to the outside. The Wandering Ones are the neophytes on the path of Cosmic Truth, which is the direction of precession. At the upper end of the common line of the two staffs is a baboon with a budding flower on its head. The baboon is the genetic cosmic knowledge within man. Here is the starting point of each cycle of evolution, for this is the seedling from the stars and the budding flower identifies the baboon as the Waters of Life. On the other side of the altar is Osiris, the collective unconscious that Carl Jung indicated could be recalled without cognitive experience. This is how Osiris reincarnates the dead.

The line of the staffs to the Sun Disc on the Altar of Instincts says, "Our Father which art in Heaven, hallowed be thy name, thy kingdom come, thy will be done, on earth as it is in heaven." "Father in heaven" is clearly demonstrated by Ra-Ophiuchus and Osiris at the Altar of Instinctive Light. "Hallowed be thy name" is demonstrated by the bow shot of Selket over the Earth (Hathor) through the feet of Jupiter (take off thy shoes) through the double crown of Horus (true experience) through the White Crown of Orion (virgin experience) through the striker of the scepter of flint (love power) through the fore legs of Taurus (physical progress) into the sun disc on the head of the stiff necked ram (name of the father, rational righteousness). First Father is true rational intent. That is why the four maidens stand on the corners of the square cosmos of rational creation. The perfect irrational dream is Cosmic Love by Father Nature, which can only come to mortals through the medium of Mother Nature.

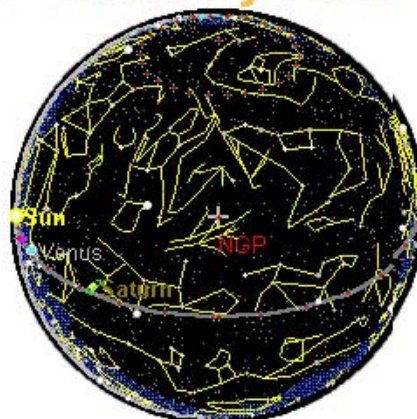

First Father Heavenly Field

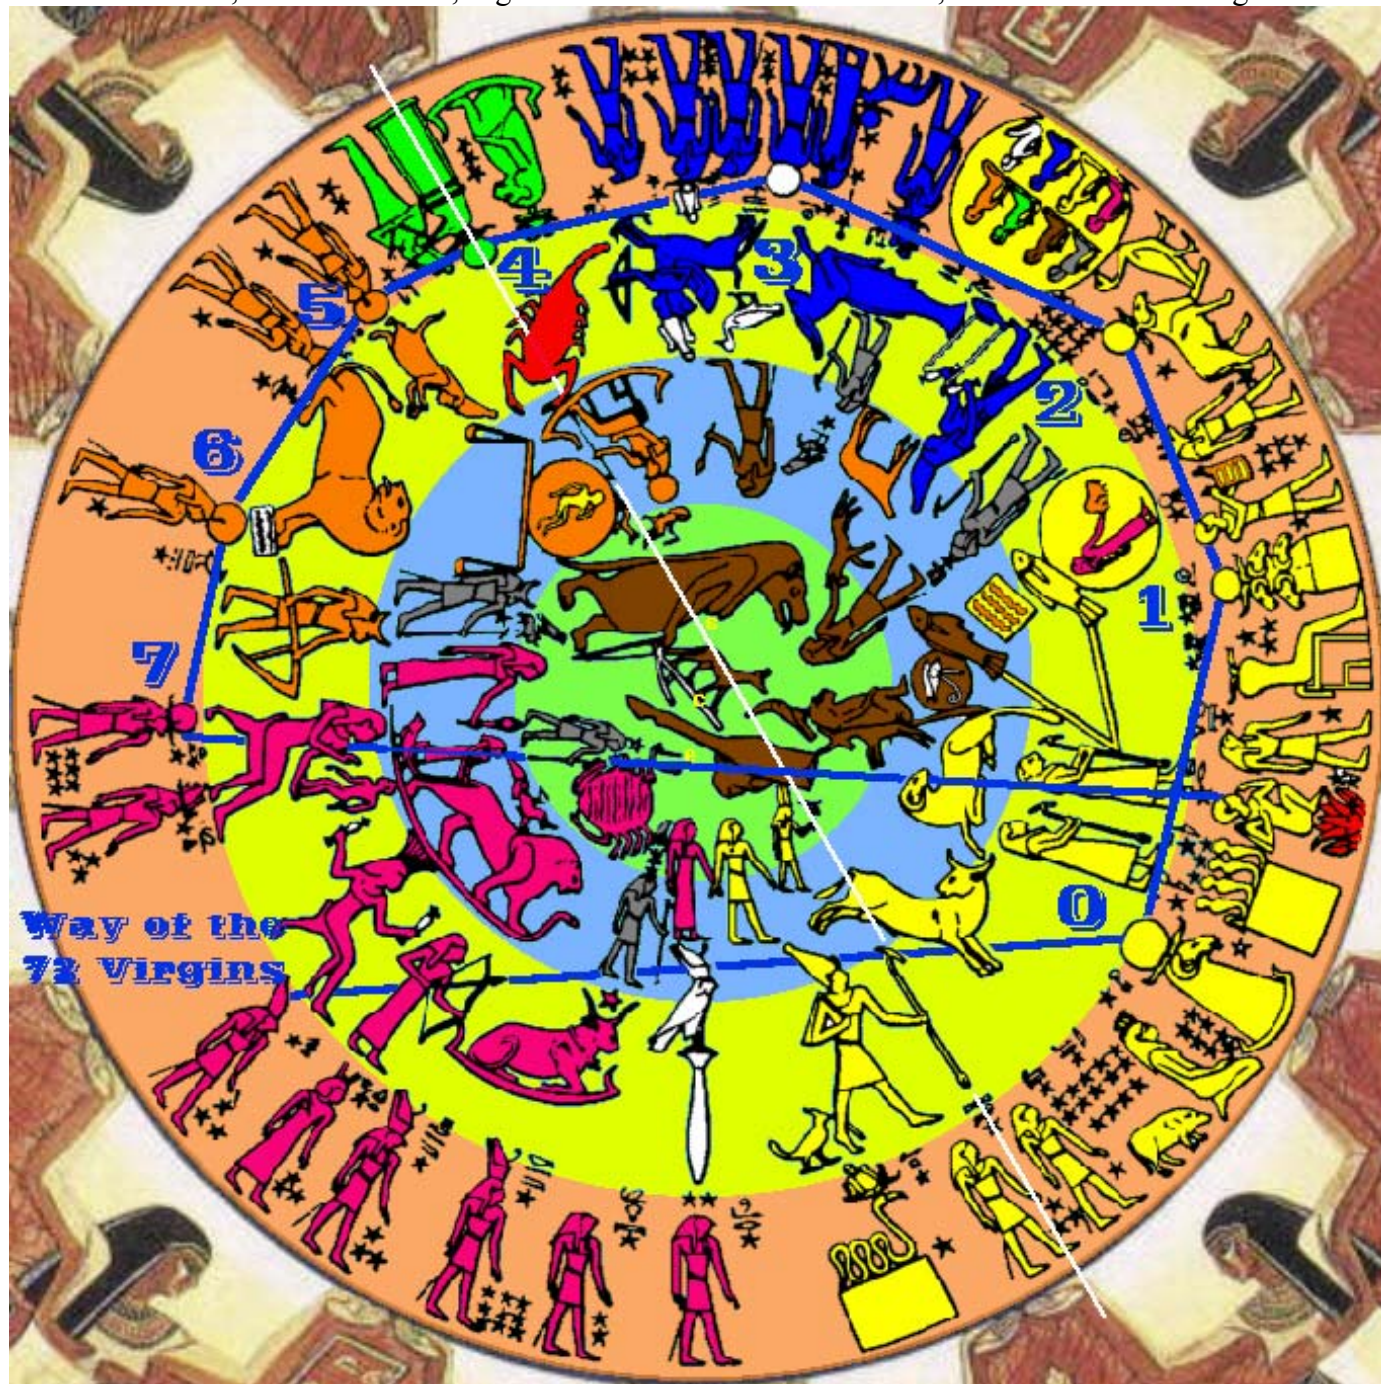

First Fire

First Mother

December 21, 2012, Mother Nature will reveal Father Nature on the Road to Damascus as Virgo gives birth to Time.

SEVENS SEALS AND SEVEN SUNS OF THE SACRIFICIAL LAMB

Revelation 5:1-7

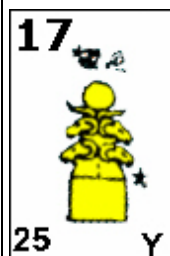

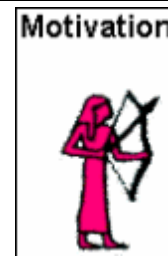

¹And I saw in the right hand of him that sat on the throne a book written within and on the backside, sealed with seven seals. ²And I saw a strong angel proclaiming with a loud voice, Who is worthy to open the book, and to loose the seals thereof? ³And no man in heaven, nor in earth, neither under the earth, was able to open the book, neither to look thereon. ⁴And I wept much, because no man was found worthy to open and to read the book, neither to look thereon. ⁵And one of the elders saith unto me, Weep not: behold, the **Lion of the tribe of Judah**, the Root of David, hath prevailed to open the book, and to loose the seven seals thereof. ⁶And I beheld, and, lo, in the midst of the throne and of the four beasts, and in the midst of the elders, **stood a Lamb as it had been slain**, having seven horns and seven eyes, which are the seven Spirits of God sent forth into all the earth. ⁷And he came and took the book out of the right hand of him that sat upon the throne. ⁸And when he had taken the book, the four beasts and four and twenty elders fell down before the Lamb, having every one of them harps, and golden vials full of odours, which are the prayers of saints. ⁹And they sung a new song, saying, Thou art worthy to take the book, and to open the seals thereof: for thou wast slain, and hast redeemed us to God by thy blood out of every kindred, and tongue, and people, and nation; ¹⁰And hast made us unto our God kings and priests: and we shall reign on the earth.

SEVEN SEALS IN THE LIGHT THAT SHINES ROUND ABOUT

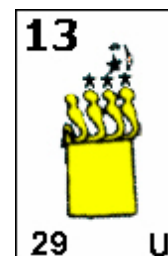

If we then extend the "bow shot" around the Circle of Fire landing at the "discs" on the heads of the Decans we find that they reveal the path to Manhood, which is Khnum's power to create the Light on the Road to Damascus. There are Seven Sun Discs, and the disc on the stiff necked ram represents the eighth. This is the Creator of Rationalization that must be sent to perdition if Manhood is to be accomplished. In other words, if we allow the Teacher of Rational Cognition to be in control, we cannot rise to the Light of a Man, for a true Man is Self Created. After Self Creation, Khnum is recreated by the 7th Sun.

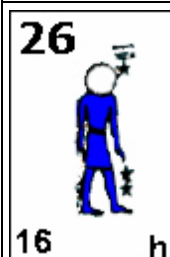

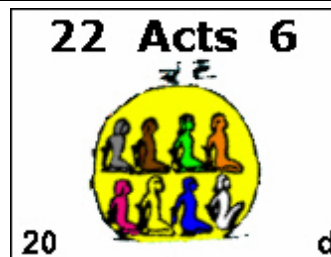

The Seven Seals of the Lamb and the Seven Suns are these.

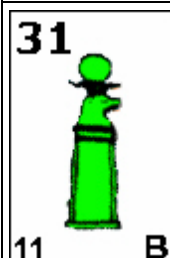

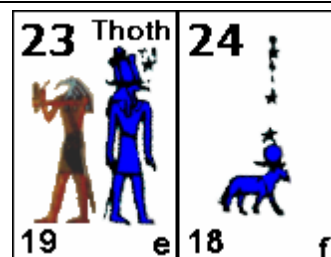

1st Sun: Altar of four rams with the disc on the Shofar horns of Khnum. This is the altar of rationalized instincts that replaces the subliminal instincts at the altar of four serpents. Note that the Man & Beast walk this line. These are the Wandering Ones who cross the Reed Sea from Egypt into the Wilderness of Zin. Also, note that the subliminal beings are broad shouldered, suggesting controlling instincts. The three stars correlate to the astral lights, Father, Mother, Son, and the spirit beings are the elements, earth, water, air, fire.

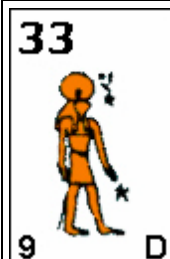

2nd Sun: Disc on the horns of Khnum on the head of the Great Shepherd that is satisfied with control of others (swan – eight bondmen). This line passes through the Ptah headed child (63 yarmulke) and the ears of the jackal meaning rational material laws. These are the Tables of Mount Sinai. Note that Aquarius (18) stands on the rationalized group of twelve stars above the Swan, meaning that Persian astrology was forcing salvation into twelve houses. The monument puts a headless man (41) walking on all fours in the face of Aquarius to say fatalistic astrology made an ass of man.

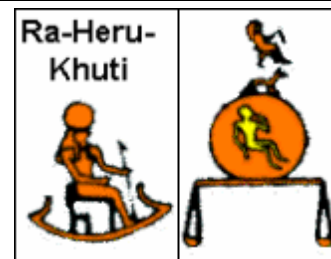

3rd Sun: Disk on the man ahead of the Typhoness. This is the "light on the road at noon." The Typhoness is Seshat and the arrow behind her head is the "North Arrow" that points to Polaris-Sirius on Mother Earth-Hathor. This is the place where orientation results in comprehension of the light. The line passes through the atef crown on the head of Thoth. There is the Lamb that reads the Book of Seven Seals in the hand of the angel in Revelation 5:1-6. And the disc headed man on the winter solstice of the planisphere has a direct correlation to Quetzalcoatl and the Maya prediction for December 21, 2012.

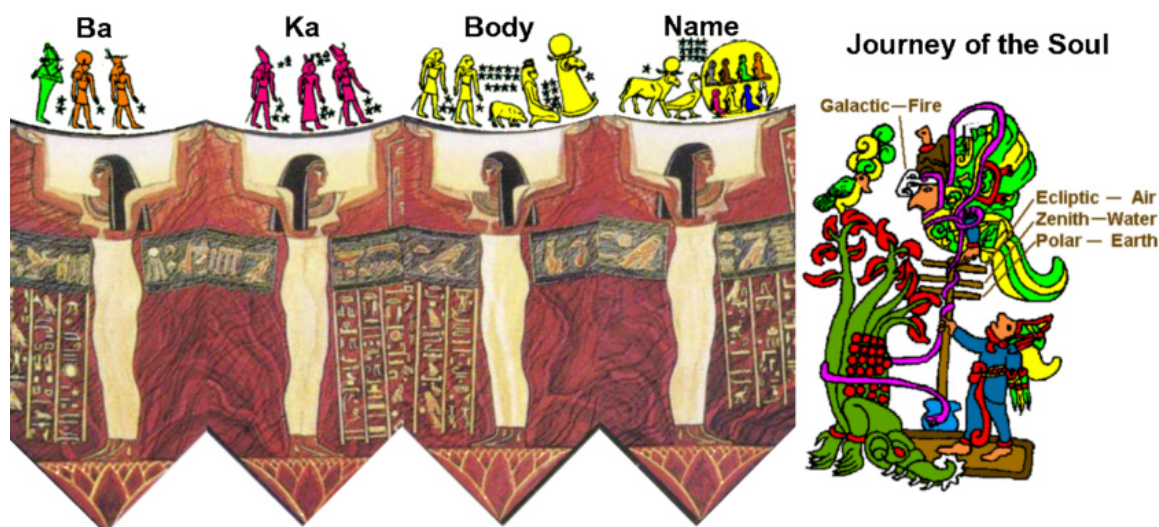

4th Sun: The next line passes to the disk on the Khnum horns on the "head of a beast" on the Altar of Instincts. The line passes through the atef crown on the "knowledgeable man" under Centaurus-Sagittarius and the flower on the head of the baboon. The line joins the Fire Boat at Sagittarius with the Water Boat at the Baboon. This line unites the Vision of the Cycle of Life and it restores Osiris (collective unconscious) to the individual who passes beyond the light and sees the crystal clear river of life. This is the double purpose raft of the centaur Chiron that carries lost souls across the River Styx to salvation.

5th Sun: This disc has a serpent symbol for Ra as the Creator's Light. The disk is on the head of a falcon indicating that it is passive cognition of Ra by the recognition of Osiris and the Baboon. This disk presents the After Life in the Future. This is what the initiate (27) had expected to gain on the journey with the Shemsu Hor (Followers of Horus 36). At the entrance to the Judgment Hall, initiates who get hung up on the "cognition of Ra" fail to see that Ra desires an heir, not a righteous neophyte who has no cognitive control on Judgment Day. Priests, Rabbis and Mullahs can be found here.

35 7 F	6th Sun: This is a Ra Disk on the head of a man under the book (pulpit) of Sekhmet, the Teacher of Righteousness, Lion of Judah, Great Sphinx. This Word of God enlightens Man by passive cognition. The line passes between Sekhmet and a Man with a red crown and the horns of Khnum. This means that Sekhmet is resting her righteousness on human rational experience and she has the inspiration of human creative enlightenment; i.e., religious motives for the path of the Son of God. Priests, Rabbis, and Mullahs, pontificate from Sekhmet's pulpit.	Teacher of Righteousness
36 6 G	7th Sun: This is the last disk and it is on a falcon headed man with the horns of Khnum. The disk is a Ra Disk, and it is the foundation of the throne of the Queen Mother who is teaching history to the child on her knee. This Ra Disk is the foundation of history. The other leg of the throne of History is a man with the atef crown of Osiris and it means that the journey man is in control of history. The Beast and Man are now a Founding Father of History. True history is the journey of the God-Father. The God has six stars and the Father has three stars, which count the City of Nine, over which Thoth, the angel with the book, is the Master. The God of Cognition and the Man of Recognition have become One.	37 5 H
1 4 I	The cycle from White Crown Falcon (1) to Atef Crown Man (37) is the cycle of human culture. It all begins when the Maiden motivates the Cocky Man to follow his genes and do the Right Thing. This journey of righteousness has many pitfalls but if the Cocky Man relies on Compressed Wisdom of the genes of the mother as he walks with mother's flail and father's staff, he will become a man with a legacy for eternal life. His destiny is to become His Story. When the grandmothers speak with the voice of First Mother, then First Father will come forth from her mouth as the glorious God-Father returns.	37 5 H
Responsibility 	The journey of the Bow Shot began at the falcon-man without the horns of Khnum who is the pillar of the throne of the Virgin Mother with the vials of delayed gratification. It proceeds to the foundation of the throne of the Historical Mother. In words, this is the Virgin path toward "grand" parenthood. The journey begins with the ambition of Selket, the Maiden, who "knows not a man" and encircles the field in a Great Circle to the Crone, who "knows all men" and speaks to a child of First Father. The journey of "grand parenthood" is a journey of 72 Decans, for personal responsibility is insufficient. Responsibility must be passed on to become a Grand Parent.	History

The journey of the Mother's Son is through the rivers of Egypt at Orion on the road to Damascus at Sagittarius through Holy Jerusalem, where the Vernal Sun begins to rise. When the Mother's Son returns to Bethlehem, he does so as a God Father. This Journey of the Soul has been the sacred Tree of Life throughout the world wherever the Manna from Heaven has been tasted.

JOURNEY TO HEAVEN ON THE WAY OF THE 72 VIRGINS IS MANNA FOR HEAVEN'S CHILD

Throughout my 65 years cognition has been triggered that turned out to be profound. I never had control of cognition, but over the years I gained control of recognition and I saw the light. The image of the Denderah Zodiac ceiling was put together to use as a mandala on the wall of the study room for my kids. In putting it together I revisited the line at the staff of Orion and realized that I was attempting to unconsciously guide the kids toward the Lion's Gate. Then I realized that something was blocking the way of Orion and my kids might hear the blocking message rather than the Leviathan's message in Selket's bow shot.

I have known that Selket's arrow hit the disc on the Stiff Necked Ram and that the maiden bending her knees to the Stiff Necked Ram represented the repression of the Medusa Pillar of Maternal Emotion, mother love. When I drew the line of Selket's Bow Shot I was aware that this was not the Bow in the Cloud that Yahweh presented to Noah, which is in the hands of Sagittarius. Selket's Bow Shot is fired from the Harlot of Babylon at Regulus with the temptations and inspirations of puppy love. She has Cupid's bow, and mother love is repressed as the boy seeks to become a man at the entrance to the temple of self identity.

Releasing my cognitive control, I let the arrow's path bounce from one disc to the next. Then counted the discs and found eight. The Book of Revelation had the objective of preserving the revelations encoded on the Denderah Zodiac. The result was that I saw the "light that shone round about" in the form of seven candle sticks. That light begins with Selket's Bow Shot and it encircles the Decans, which are the "Lights Round About" that provided the ancients with the time of day and the day of the year and the year of the years. They are located on the road to Damascus at the conjunction of the winter solstice and the galactic crossing called the Gateway of Gods. The Seven Suns reveal the Seven Spirits of God, which are the central revelation of the Book of Revelation. These Seven Suns are also the same Seven Days of Genesis, for in the wisdom of Cosmic Gnosis, a day is a period of enlightenment. Enlightenment comes as psychic excitation from the Medusa First Mother when it reveals First Father as Cosmic Intent. Mortals do not control cognition within the gateway of First Mother, but through her flooding waters they can recall cognition as the Sacrificial Lamb of "Am I Me" learns to read the Signs of the Times without repression of mystifying emotions.

On the day of the 7th Sun the Pythian God can rest, as was the case in Genesis, as the Pythian Man goes into the Land of the 72 Virgins, where the Light Shines Round About. The destiny is a virgin child who sits on a flower wondering, "Am I Me," as the Manna from Heaven enters his mouth as divine agape love from ancestors. The maternal temple to Hathor is revealing to its faithful that children hear what they love and deny what they fear. As such, true love does not come as the lioness, Sekhmet, it comes as the sacred cow, Hathor. She, as consort to the Sun, Amun-Re, is Mother Earth, and her child is the falcon, Horus. It is Horus that is cognition of truth, and the only begotten son of the Divine Father-Mother Cosmocrater.

Where the image shows the 7th Sun and the day God rested, the line turns from the decan circle and goes through the Throne of History and the staff of Sebek (Uranus) to the Eye of Aries. This is the end of the line of the quest for personal identity. The Eye of Aries is the end of "Am I Me." It is the culmination of the statement above the door of the Greek Temple in Delphi that declared the fundamental tenet, "Know thy self." When we die and go to Heaven we lose the power of self cognition as we become history. The Way of the Dead requires Reincarnation (5&6) at the Flower Child (60), whose mouth is on the line of the staff of Sebek. That line also identifies the celestial pole of the earth on the Denderah Zodiac (e = earth pole, s = solar pole, c = center). The implication is that History repeats itself and Eternal Life is the Cosmic Plan that aligns the earth. When a neophyte achieves the state of holistic self gnosis, the neophyte becomes cognizant of the destiny of life, and that destiny is the next generation, or Heaven's Child. It is just an imaginary essence to a virgin mother, but it is the ultimate miracle of Seshat. For when a virgin stretches the cord with Seshat, they can cause the imaginary to become real.

The Pythian Man at the front leg of the throne of history does not finish the journey at the entrance to the "Hall of Records." The Pythian Man goes the "Way of the 72 Virgins" and starts a new process of cognition, a New World Order, a new quest "Am I Me." This is the Lion's Gate on Mother Earth, Hathor, where Jupiter stands. The choice under the throne is to become history, or to make history. The risk in becoming history is that the Flower Children will reject the manna from the ancestors, as the last two to three millennia have demonstrated. The risk of making history is that the path may lead to personal failure. When human civilization cannot pass on the Word of God as written on the Cosmic Wall, then civilization has experienced an incomprehensible collective failure. It was the anticipation of repressive egocentric fear that empowered the ancients to build their magnificent towers, temples, pyramid complexes, and necropolises. They saw the way that the rationalizing mind of man was evolving and they laid the foundation for the mind of man to overcome egocentric loss of Cosmic Cognition in their monuments.

Regardless of the path chosen at the Throne of History, stepping out in faith is the way of Rostau, where a Cocky Man wanders in bewilderment with Free Will and the hope that love will come to him should he fall into the cosmic pits, for love never fails. The Sea Monster, Cetus, which is the Behemoth of Job, belongs under Aries. But, the monument designers placed Venus at the location of Cetus. The message should be profoundly clear. They were presenting the image of the Cosmos after Love calmed the turbulent waters and the Second Coming of the Christ Child. The two icons walking above the Four Spirits (59) and Heaven's Child (60) represent the planet Venus as an Evening Star (53) and as a Morning Star (39). It is for that reason that the staff of Sebek, First father, projects through the Morning Star (39) of Venus. To all of Heaven's Children the intention of the composition of the icons on the table prepared in the upper room at the Temple to Hathor says:

"And so we have the prophetic word confirmed, which you do well to heed as a light that shines in a dark place, until the day dawns and the morning star rises in your hearts." 2 Peter 1:19

"I am He who lives, and was dead, and behold, I am alive forevermore. Amen. And I have the keys of Hades and of Death." Rev. 1:18

And the twelve gates were twelve pearls: every several gate was of one pearl: and the street of the city was pure gold, as it were transparent glass. Rev. 21:21

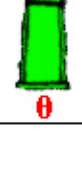

"I, Jesus, have sent My angel to testify to you these things in the churches. I am the Root and the Offspring of David, the Bright and Morning Star." Rev. 22:16

Prologue

Revelation 13:16-18 (King James Version)

And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads: and that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name. Here is wisdom. Let him that hath understanding count the number of the beast: for it is the number of a man; and his number is Six hundred threescore and six.

The light that shone round about the circular zodiac was decoded using guidance from Revelation 13:16-18. Each icon, whether man or beast was evaluated at the head and at the right hand, where right is the viewer's right. They tell a story that has been told in temples throughout the earth for tens of thousands of years. The story is, "Know Thy Self" and "Do the Right Thing." This is the destination of Selket's arrow. The enlightenments at the foreheads of the icons in the great circle have been presented above. As for the hands, they tell a conjoining story that is clearly Egyptian and Cosmic. It is the story of Osiris and Isis and the destiny of the First Father of Egypt to become a pillar in a kingdom of books. Western Civilization, from the Himalayas to the Atlantic Ocean and across the New World to the Pacific shores of the Andes, has followed the story of Osiris and Isis in numerous forms. Here is how the story is told in the stars at the right hands of the icons on the Great Circle of the Denderah Zodiac.

Right Group	Righteousness of Group
Alpha	This is the Ka Inspired Dream, which is the will of God entering the medium of Cosmic Maternity across the Lion's Gate where eternal will transcends virgin feelings.
Beta	These are the last two decan count icons. Decan 36 has two stars at the head indicating the rational count. Decan 37 has two stars at the hand indicating irrational count. Decan 37 is the five day epagomenal period when the children of Nut and Geb were born of the spirit of the stars around Orion and Sirius.
Gamma	The Crooked Serpent and Stiff Necked Ram are the irrational and rational bounds at the entrance to the Temple of Rational Manhood.
Delta	Two man icons carry the sacred trinity of three in one; Father, Mother, Child, are One. The Father is Intent. The Mother is Medium. The Child is Cognition. Communication fails if all three do not act in Unison, regardless of created essence. Thus, these properties are limits upon the Almighty Creator, as well as the mortal creature.
Epsilon	This is the body of Osiris that is cut to pieces by rationalizing mind at the Gemini-Taurus gateway of men and restored by wisdom of the heart as true sentiment at Capricorn-Sagittarius and the gateway of gods. Seth, as rationalizing mind puts experiences into perfect fitting boxes and sends them down "streams of consciousness" where they become the Book of Life in a Kingdom of Books. Isis, desiring the sentiment of her experiences searches for and reassembles the parts of the Body of Osiris and reincarnates her sentiment.
Zeta	These represent the pieces of the body of Osiris in transition from controlling irrational emotions to dominating rational emotions. The rational mind is symbolized as a broad shouldered lord with no head and no hands. Rev. 13:17 specifically forbids this tyrannical lord from operating within the realm of Chosen Ones who are marked by head and hand; <i>and that no man might buy or sell, save he that had the mark.</i>
Eta	Tyrannical control of personal emotions results in fully rationalizing the stars and bondage of the human imagination. This bonded condition is the result of arrogant repression of feelings and ultimately loss of access to the creative sensations. The fatalism of Zoroastrian Astrology is represented by the eight bound men, and the swan with the stars in a "perfect fitting box" tell us that tyrannical leaders are satisfied by placing others in bondage.
Theta	These icons present the Creator as cognition. The eighth is the egocentric Son of Man, who must go into perdition in order to restore Divine Presence of Mind. Man is God, but man is mortal and all power available to man comes through cognition of the senses and the spirits that are fully in the command of God. When man gives control of cognition to God, man has access to the Lion's Gate where mortal will and eternal will are one through transcendent feelings. This is the Hall of Judgment, where the mortal being judges itself to be divine while mortal and chooses to be an heir to the cognition of God as the proper reasoning of the heart. The man pays attention holistically, rather than personally, and the child takes his finger from his own mouth. If being an heir to God's cognition is not the outcome of the mortal's decision, then the mortal vanishes from the rational perception into perdition, perhaps to come again as a newly reincarnated self after a journey to "some day isle" in the belly of Tauret, the mother of cosmic time.
Alpha ALPHA	After man gives control of cognition to God, man has access to the Lion's Gate where Divine Will acts through the mortal will. The feelings are communications from the senses that result in emotional recall and rational recall. If man usurps control of cognition, then the senses are cut off from cognitive communication. Feelings and emotions become a tempest struggling to "make sense" of the resulting chaos that comes without communicating with the senses. It is a reincarnation of the created medium as the Alpha Alpha, the first of the first, and First Father. This is the place of the Horus of Two Horizons. The staff of Sebek (First Father) leads across the Cosmos to Heaven's Child, and the mortal soul lives within the soul of the offspring in the "hereafter" upon the child's Second Coming.
Alpha OMEGA	This icon presents the Divine Man as master of recognition who is capable of another journey with the 72 Virgins. Here a mortal has control of memories and listens to every cognitive event as if it were a virgin event. Life proceeds on a spiral, not a circle, and each rational comprehension of the past is imperfectly aligned with later similar comprehension. Judgment based upon righteousness ceases because there is no prior righteousness that must be met for approval of a virgin cognition. The virgin cognition is accepted unconditionally because a mortal that has thought control would never turn away from loving cognition toward perdition.
